

Metal Manual Hand Labeller (MMHL)

Pyrotec PackMark supplies **metal manual hand labellers** for even the **smallest manufacturer** at an **affordable price**.

The metal manual hand labeller **labels** the **front and back** labels of a product which ensures a **professional appearance** on any **glass or plastic container**.

Which industries would benefit from this labeller?

This low maintenance machine is ideal for industries with small production runs, as no time is taken to position the label as with hand labelling.

The MMHL can handle wine bottles from 187 ml to 1.5 L. It can also label various other containers such as securitainers, tubes and containers up to 2 L, depending on the application requirements.
