

## PYROTEC PACKMARK

**Pyrotec PackMark** is our machinery division offering a full range of labelling, coding and print-and-apply equipment from leading brands such as Markem-Imaje, ALTech and Accraply Europe Ltd, supported by end-to-end project management and after-sales service. These solutions are complemented by **Pyrotec PackWorx's** custom conveyors, feeding and automation systems, **Pyrotec PackLink's** smart factory software that provides real-time production insights, and **Pyrotec Finance**, which offers flexible funding options to make world-class technology more accessible.

### PRIMARY, SECONDARY & TERTIARY CODING

Pyrotec PackMark supplies coding machines for any array of industries including: food, beverage, cosmetics, toiletries, pharmaceuticals, electrical, electronics, cables, tubes, profiles, among others. The type of machines include: small and large character inkjets, lasers, thermal transfer coders, large character valvejets and print & apply coders.

### LABELLING

Pyrotec PackMark supplies the following labelling systems: self-adhesive, print & apply, linear labelling systems, semi-automatic labellers, entry-level self-adhesive labellers for cylindrical objects and hard labellers.

### SMART FACTORY SOFTWARE

Comprehensive Smart Factory Software Solutions designed to optimise production processes and maximise efficiency across manufacturing lines.

### CONSUMABLES

Pyrotec PackMark offers superior, research-driven consumables, designed for durability and optimal performance with our equipment.

### ACCESSORIES & SPARES

Pyrotec PackMark offers a comprehensive range of accessories to meet your printing and labelling needs. Decades of experience ensure that you get the best quality accessories available, ensuring optimal performance for your printers and labellers.

### CUSTOM ENGINEERING

Pyrotec PackWorx is a general engineering machine shop which includes the development and manufacturing of conveyors, feeding and automated systems for the packaging and manufacturing industry.

### FINANCING SOLUTIONS

Pyrotec Finance is dedicated to supporting your production operations through flexible financing solutions tailored to meet your specific requirements.

# PYROTEC PACKMARK

PackMark is Pyrotec's machinery division that offers a comprehensive range of labelling, coding, print-and-apply labelling equipment and consumables. We supply an exclusive range of the very latest hardware from international industry leaders, including Markem-Imaje, ALTech, Accraply Europe LtdAnser.

**ENTRY LEVEL EQUIPMENT IS PERFECT FOR:**

Start-up companies | Total running costs | 2 - 3 lines of print | Slow printing | Labelling

## ENTRY LEVEL CODERS, LABELLERS & SOFTWARE

Entry Level: Primary Coding			
CIJ Continuous Inkjet Coder	TTO Thermal Transfer Over Printer	Fiber Handheld Laser	Thermal Inkjet Printer
9018/9029	SmartDate X30	TL30	SPH
Entry Level: Secondary Coding & Labelling			
DOD (Drop On Demand)		Labeller	
4500		BottleMatic	
Labeller	Labeller	Labeller	
ELDH	MMHL - Metal Manual Hand Labeller	ALstep E	
Software			
<p><b>CoLOS® Base</b> satisfies all design and management requirements for all your Pyrotec PackMark printers.</p>

# PYROTEC PACKMARK

PackMark is Pyrotec's machinery division that offers a comprehensive range of labelling, coding, print-and-apply labelling equipment and consumables. We supply an exclusive range of the very latest hardware from international industry leaders, including Markem-Imaje, ALTech, Accraply Europe Ltd, Anser.

## INTERMEDIATE LEVEL EQUIPMENT IS PERFECT FOR:

Mid-sized companies | Medium speed printing | 3 to 4 lines of printing | Labelling

# INTERMEDIATE LEVEL CODERS, LABELLERS & SOFTWARE

## Intermediate Level: Primary Coding

CIJ (Continuous Inkjet Coder)	CIJ (Continuous Inkjet Coder)	TTO (Thermal Transfer Overprinter)	Laser	Laser
9330	9410	SmartDate x45	SmartLase C150	SmartLase C350

## Intermediate Level: Secondary Coding & Labelling

Print & Apply	DOD (Drop On Demand)	Piezo	Piezo	Labeller	Labeller
2200	4700	5940	5800	ALritma S	ALbelt

## Intermediate Level: Tertiary Coding & Labelling

Print & Apply
2200 Wipev

## Software

	<p><b>CoLOS® Line</b> - CoLOS® satisfies all design and management requirements for all your Pyrotec PackMark printers.</p>		<p><b>Pyrotec PackLink</b> - Pyrotec PackLink is software that can be customised to suit your production environment. This is achieved by centrally managing a unique base of messages on a secured server, which links to your enterprise database allowing the retrieval of all product information.</p>
